

HKMASK

POCKET SMOKE MASK

USER MANUAL

ONE SIZE FIT ALL PERSON

SAFETY INSTRUCTIONS

Thank you for purchasing the POCKET SMOKE MASK (PSM). Please read the below instructions carefully before you using the PSM:

- Ⓢ PSM can filtering toxic smoke but not supply extra Oxygen, escape from fire immediately after putting on.
- Ⓢ PSM is to help you emergency escape from the fire, not used for firefighting.
- Ⓢ PSM and its components are highly fire resistance but not fireproof.
- Ⓢ If PSM is exposed for more than 20 minutes, it is no longer efficient.
- Ⓢ The efficiency of PSM against all types of contaminants cannot be pre-determined. It is therefore important to leave the danger area as quickly as possible.
- Ⓢ PSM is vacuum packed to protect and ensure optimum efficiency of the filter layer. The efficacy of the layer diminishes when exposed to the atmosphere.
- Ⓢ Do not use the PSM after it has expired. Expiry date is shown in the aluminum foil package.
- Ⓢ In no event shall HKMASK be liable for any consequential or incidental damages, arising out of the use of this PSM.

NAME OF PARTS

Hood:

The transparent film can resist high temperature to 450°C, it is designed to fit the face with 360° full angle of view, can speech and hearing when wear the hood.

Gas Filter:

The six layers filter can stop and reverse the toxic smoke in fire not easy to break through directly, and the toxic smoke to be purified by the elaborative construction filter.

Neck Strap:

The neck portion made of fire resist material, it has an excellent elasticity and stretches. One size for all adults, children and infant.

SPECIAL FEATURES

The PSM is made of Polyamide Film, the most advanced film for resistance of fire, it will not be melted to prevent the face from burning by fire.

Pocket size

This is small, portable smoke mask, so you can take it anywhere to protect you at anytime.

One size fit all

Designed for every user, it has a flexible elastic rubber strap. Therefore it could fit even an infant.

Easy to use

As easy as ABC, just ware it over your head and done, no Pre-training requested.

Full range of vision

PSM has a full angle of view let you easy to escape from fire.

Long last for anti-smoke

Up to 20 minutes of respiratory protection and dramatically increasing your chances of survival.

Protect lungs and eyes

A heat resistant hood that covers the entire head to the shoulders. Protecting eyes, nose and mouth from lethal smoke and fumes.

EFFECTIVENESS

The PSM is content a circulating counter washing layer, it design for repeatedly filtering through circulation many times, the toxic smoke components from the fire have no chance to get into the mask.

High Filtering system

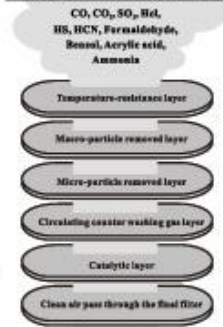

It made of multi-element activated charcoal cloth and it is the best anti-smoke approved by the industrialized countries all over the world. It has a significant smoke absorbing and removing capacity, thus it is able to keep fresh air to the user in smoky environment.

Six layer of filters

It have includes two activated carbon fiber filters, using high temperature sealing technique, the filters are manufactured to from many pore structures with a larger surface areas and a much higher absorption efficiency that of a regular activated carbon.

And the doubly secured design from its two filter, even tiny smoke articles can be excluded through this filter design from its tow BET:1300 filter, even tiny smoke articles can be excluded through this filter design.

Schematic drawing of low nitro carbon, gas filter various smoke poisons produced in a fire.

SPECIFICATIONS

- ① **Hood:** made of Polyamide Film, fire resistance up to 450°C
- ② **Filters:** made with activated carbon fabric, filtering toxic smoke up to 20 minutes.
- ③ **Neck Strap:** made of elasticity TPU material, fit to any user even an infant.
- ④ **Net weight:** (without package) = 42 gsm
- ⑤ **Size when unfolded:** 38cm W x 39.5cm L x 0.4cm D
- ⑥ **Packaging:** packed with vacuumed aluminum foil
- ⑦ **Color:** hood transparent orange color, Filters black color, Neck Strap black color.
- ⑧ **Shelf life:** five years when not open the aluminum foil package.
